## **Inclusion of civil society at UN meetings in the first half of 2021**

### **- Sharing good practices and common challenges**

Civil society from across countries, regions and thematic areas are invited to this webinar to share good practices and common challenges on inclusion of civil society at UN meetings in the first half of 2021.

Civil society involved in the UN Environmental Assembly, Committee on World Food Security, Commission on the Status of Women, Regional Sustainable Development Forums and Forum for Financing for Development will come together to reflect on:

1. Challenges for civil society participation at UN meetings.
2. What works well and what could be built upon and extended to other spaces such as HLPF, UNGA etc.?
3. What the general positive and negative dimensions of the current virtual phase are regarding inclusion of civil society at the UN?

A group of CSOs, including A4SD, Forus, CIVICUS, TAP, CAN Together 2030, ISHR, SID, Global Focus, Action Aid and MGoS Coordination Mechanism will convene this dialogue as part of a series of webinars addressing inclusion at various UN meetings throughout 2021.

Translation in French and Spanish will be provided.
